

# Alaska Facts

Four large, empty octagonal shapes stacked vertically, designed for writing facts. Each shape is connected to the one above it by a horizontal line, creating a vertical column of five octagonal sections.

Cut book out as one piece. Fold back on forth on each solid black line (accordion style). Glue back into your lapbook. If you want it to stay shut, consider tying a ribbon around it before you glue the back down. Your student will be able to open/close the book by tying/untying the ribbon.
