

# Travel Calculations

Read the author's note. Teach your student how to use tally marks to answer the following questions. Can he "see" the answer to the last question by simply looking at the tally marks? You may also want to use this as an introduction/review of skip counting by 5s.

How many days did they  
travel by open sleigh?

How many days did they  
travel by steamship?

How many days did they  
travel total?
