

It takes courage

to face your fears

Glue this side down to lapbook

This flap will fold up over the interior section

Cut out on the outside solid lines, but do not cut off the lower tab. Fold the lowest section (Velma Jean flap) up, over the interior section, then fold the cover over that.

Cut out these inserts along the solid lines to get 2 sections.

Place these inside the fold out areas (Velma goes on the fold down flap, the afraid one goes inside the inside-center section), then have them add a verse that speaks of not fearing or calling upon the Lord in time of fear/need.

<p>Velma Jean was not afraid of</p>	<p>But she was afraid of going into the dark cellar. God's Word says</p>
