

Cut out book as one piece. Fold in half.  
Cut out butterflies (choose six according to  
your student's ability). Cut out each small  
rectangle. Fold in half and cut around but-  
terfly shape.

After the math problems are completed,  
paste three in the top of the book and  
three in the bottom. Glue the back side of  
the book to your lapbook.

# Butterfly Math

I see  
8 compound  
eyes, how  
many  
butterflies  
do I see?

I see  
16 butterfly  
wings, how  
many  
butterflies  
do I see?

I see  
18 butterfly  
legs, how  
many  
butterflies  
do I see?

I see  
12 butterfly  
antenna, how  
many  
butterflies  
do I see?

I see 4  
proboscises.  
How many  
butterflies  
do I see?

I see  
one  
butterfly.  
How many  
body parts  
do I see?

I see  
12 butterfly  
legs, how  
many  
butterflies  
do I see?

I see  
4 butterfly  
antenna, how  
many  
butterflies  
do I see?
