

Cut on solid lines.

Fold both sides in on dotted lines, and then fold in half on dotted line so cover is on top.

[www.homeschoolshare.com](http://www.homeschoolshare.com)

Cut out the rectangle above on the solid lines. Then fold on the dotted lines. Glue to lapbook where indicated. Cut apart individual characteristics at right and glue them under the proper heading. On the other side of the "fishy" page have your child draw a fish. On the other side of the "not so fishy" side have your child draw a sea creature which is not a fish.

Vertebrate	Births Live Young
Invertebrate	Moves with Legs
Skin	Moves with Fins
