

DOLPHINS ARE MAMMALS TRIFOLD

Fold paper into thirds (like a letter); this is called a trifold. Make it the same height as the template. (You actually use the template only as a *pattern* for cutting your trifold.) Cut out the dolphin shape, using the folds for the top and bottom of the dolphin. On the very back of the mini-book, attach the top and bottom fins.

Inside the book, write and illustrate characteristics that make dolphins mammals (and not fish).
