

DANGER !!!

Which is more dangerous?

Instructions:

Cut out the shapes along the outside lines. Cut the solid line between the shark and the red hexagon, and cut away the piece between the hexagons on that side. Cut the solid line between the fisherman and the red hexagon, and cut away the piece between the hexagons on that side. Fold the shape in half horizontally, so that you have the shark, red hexagon and fisherman on top. Under the shark flap, paste the loose hexagon "I kill 6 - 12" and under the fisherman flap, paste the loose hexagon "I kill 75 - 100 million". Fold the red hexagon open. Fold in the fisherman hexagon to the left, and the shark hexagon to the right. Fold the red hexagon closed. Paste into your lapbook by the middle top hexagon, which is now the bottom-most hexagon.
