

Frog Hop Game

Lousia had a frog pond game board. She wrote a vowel on each lily pad. She then made game cards. Each card has a picture of one short vowel word on it (about ten of each).

Rules: Take a card, say the word, hop to the closest short vowel that matches. If the picture is a cat, the child says "cat a a a" then hops to the first lily pad with an **a** on it. If the other player is on the lily pad, they are booted back one. There are 4 special lily pads "Hop back 3 spaces" or "Hop ahead 2 spaces", they are the dark green ones.

You could make the game by printing your child's fingerprints in the game board pattern and drawing with black felt pen the lily pad. It would look like this:
