

Cut out shapes. Let your student write (or cut/paste) definitions on each piece. Stack together and staple on the left side of the front cover (you could also use a brass fastener). A few blank pieces are included on the next page if you'd like to add words.

having a body temperature not regulated by the body and close to that of the environment

to pass the winter in a sleeping or resting state

any organism that is able to live both on land and in water

A change in the form of an animal (from tadpole to frog)

an organ (as of a fish) of thin plates or threadlike processes for obtaining oxygen from water
