

# PRINT ON CARDSTOCK

○	<h2>Choosing a Title</h2>	

Complete lesson on page 49 of your FIAR Volume I manual. Use the templates provided to record the title of the story (The Glorious Flight) as well as to record the answers to the "creative exercise" in the manual. You may not need all the pieces. Don't forget to have your student underline the titles!

To assemble the fan book, cut out each piece that you use. Stack together and place a brass fastener on through the pages. If you don't have any brass fasteners, a staple will work (just staple on the right side of the front cover).
