

# TYPES OF CLOUDS

Cumulus

REMOVE THIS AREA (Cut away so you have just a tab left)

Cirrus

REMOVE THIS AREA

Cut the strips along the solid outer lines. If there is a rectangle piece in the right corner of the strip, cut it off as indicated (remove this area). Stack your strips in order and staple at the left side of the front page where the marks are indicated. Your younger student can draw pictures of each type of cloud. Your older student can write information and may want to illustrate it as well.
