

Cut out trash can. Using an exacto knife, cut dotted line.

Cut out lid as one piece. Let your student write a summary of this chapter on the white area (you may need to type it and cut/paste it).

Carefully bend the bottom black part of the lid and slip it down behind the white dotted line. Push it all the way down into the trash can.

Look at the back of the can and add tiny amounts of glue. Do not touch the lid piece. Glue to the back of your lapbook. Your student should be able to lift the lid out of the bucket to read his summary.
