Cut out accordion book as one piece. Fold on the solid black lines— back and forth (back and forth) until the book is folded.

Let your student write an interjection on each page. Glue back of last page into your lapbook.

If you want the book to open and close, BEFORE you glue it, wrap a ribbon or piece of yard around it so that the bow will tie in the front. Your student can untie the bow to open the book and re-tie the ribbon after looking at the book.
