

Cut out each word with call-out as one piece (five total). Fold word flap down so that the word is showing on the front. Let your student lift the flap and write the English equivalent.

Stack call-outs together (with flaps down) and staple on the left side.

Cut out the man on the next page. Let your student color him, if desired. Paste him into your lapbook. Glue the back of the last call-out to the rectangle next to the man.

Blank call-outs on this page can be used as desired.
