

Chapter 16 Flora and Fauna

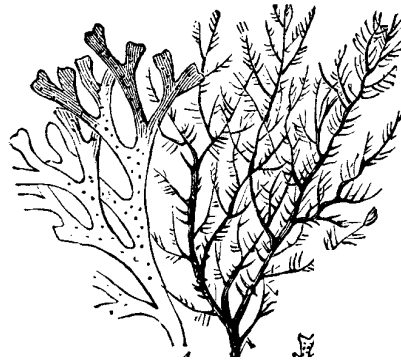

Snail

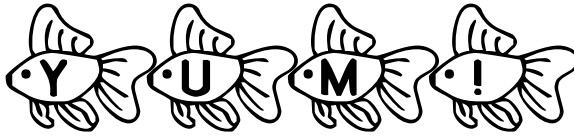

Copepod

Limpet

Algae

What kind of eaters are these sea creatures?

Hermit Crab

Sculpin

CARNIVORE

Snail

Zooplankton

Lobster

Herbivore

Barnacle

Shrimp

Gull

Omnivore

Rock Crab

Clam

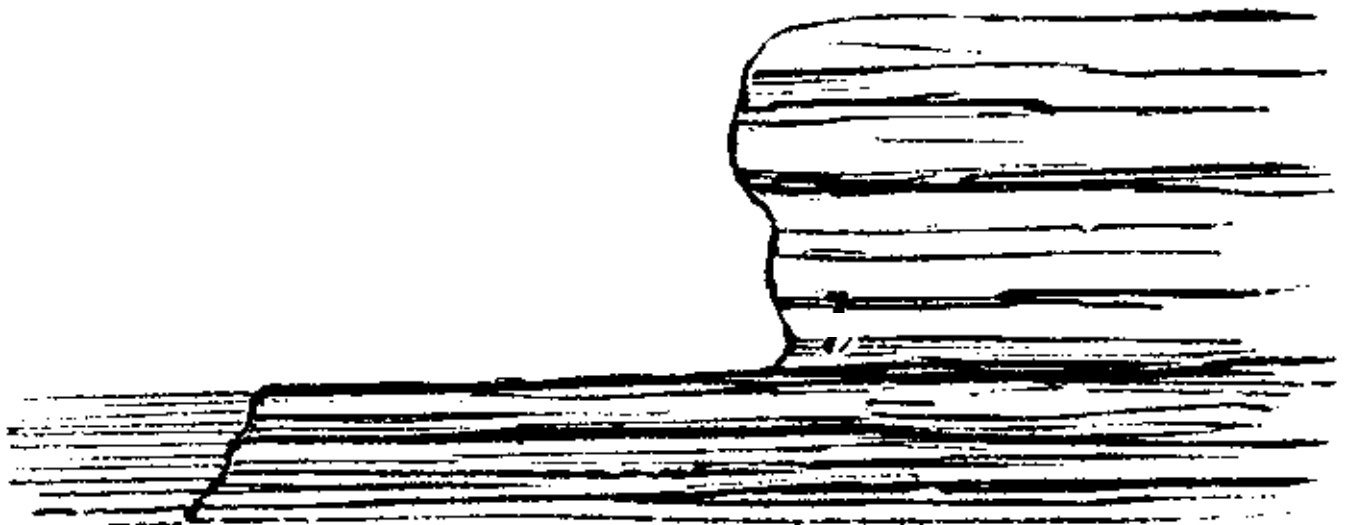

Erosion

What is erosion?

How can we help prevent erosion?

Besides water, what else can cause erosion?

Look at the picture of the tidal pool ledge below. As the tide comes in, day after day, it wears the rock smooth. Color in the ledge and mark the spot that will eventually hollow out into a cave.

SIMILE

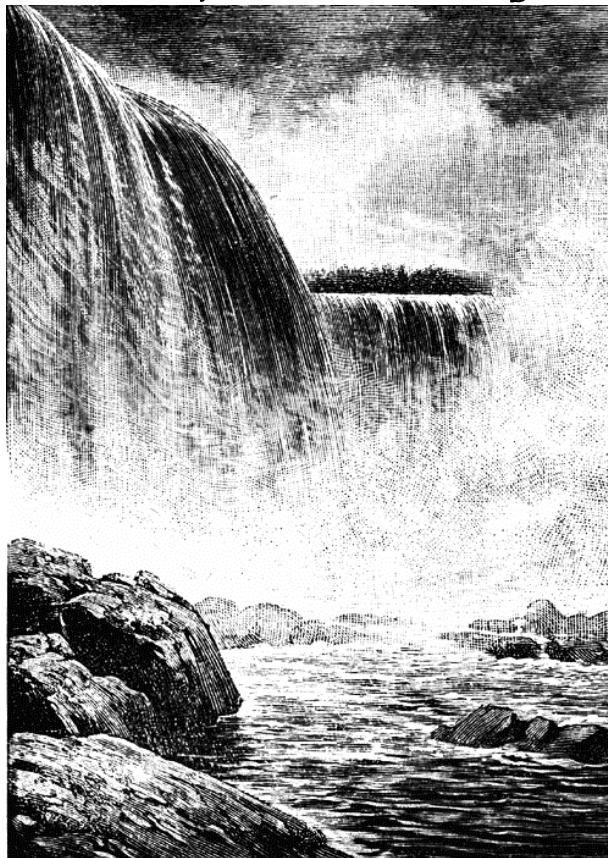

What is a simile? _____

Read this sentence from *Pagoo*:

"Like a tiny canoe in a vast Niagara Falls, Pagoo's shell was tossed over the brim - and Pagoo went with it."

What is being compared to Niagara Falls? _____

Examine this picture of Niagara Falls.

Write four words that describe Pagoo's trip in the water.
