

back

For best results print on cardstock. Color the side flaps brown to resemble a longhouse. Cut on the outside lines as one shape. Fold the bottom flap up and the sides in.

If you would like, you can cut out the door of the longhouse or even attach a small piece of brown cloth. Inside the book, write about the longhouse and/or draw what the inside of a longhouse looks like.

Using another sheet of paper, the same color and thickness as your book, cut two long strips, each 8 cm. wide. Fold these accordion style and affix to the back and front of the minibook.
