

1 whole note
is equal to...

1 dollar is
equal to...

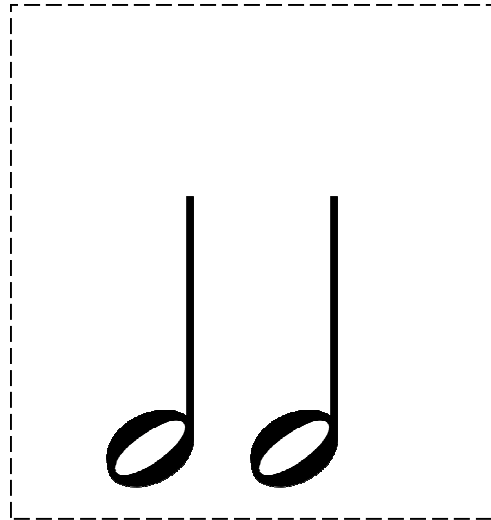

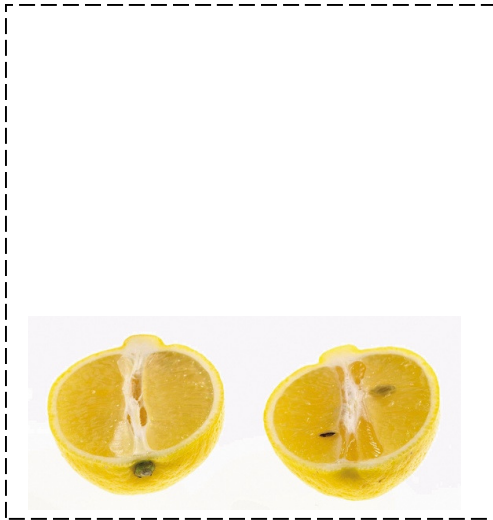

1 whole note
is equal to...

1 whole
lemon is
equal to...

Discuss the lesson on page 22 of FIAR Volume I.

Cut out book on previous page as one piece. Fold on solid black vertical lines. Cut the horizontal lines between the doors.

Cut out each rectangle on this page. Help your student decide what goes under each door on the book.

You can let your student write or dictate the words $(1/2 + 1/2)$ or *2 halves* on each rectangle, as appropriate.
