

Cut out on solid lines. Valley fold on dotted lines. Cut out and glue title graphics to cover.

Color:

North America (red)
South America (blue)
Africa (green)
Asia (purple)
Australia (yellow)
Europe (orange)

On what continent are there
no lizards living?

**WHERE IN THE
WORLD DO
LIZARDS LIVE?**

Where Can You Find Lizards?

Lizards are found on every continent except Antarctica, which is too cold for them to survive. Review the seven continents with your child – Africa, Asia, Australia, Antarctica, North America, South America, and Europe. Color in the continents where lizards can be found on [World Map Shutterfold](#).

Most lizards can swim. A few species of lizards such as the giant sea iguana spend most of their lives in or around water, but commonly lizards try to avoid it because they are not designed to live in wet climates.
