

		What kind of tree Can I tap?	
	back of book; glue this side to your lapbook		
			

Cut out book on previous page as one piece. Fold in half on the center black line. Unfold. Fold on the solid black lines on the left and right sides. Fold each side under. Cut dotted lines on each side to form six flaps. Let your student cut and paste the pictures on this page to the outside of the flaps. On the inside of the flaps, she should write YES or NO according to whether or not the type of tree produces maple syrup.

Fold book in half again to close it.
