THE NOSE KNOWS

www.homeschoolshare.com

Cut chart out as one piece. Fold in half. Cut out cover piece and paste on the front.

Use the inside for the smelling activity found in the unit.

Present one smell to your student. He should check column one, two, or three. He should then put his guess as to what it is in column four. At the end of the smelling activity, reveal the scents and let your student record.

Did his nose know? :)
