

Cut out each page as one piece. Stack in order (Greece, Map, Flag, Facts) and Staple on the left side of the cover page (GREECE).

Let your student find Greece on the map of Europe and color it in. Have her paste the flag picture into the book or draw her own and color it in. Let her write a fact (or facts) she found interesting as you studied Greece together.

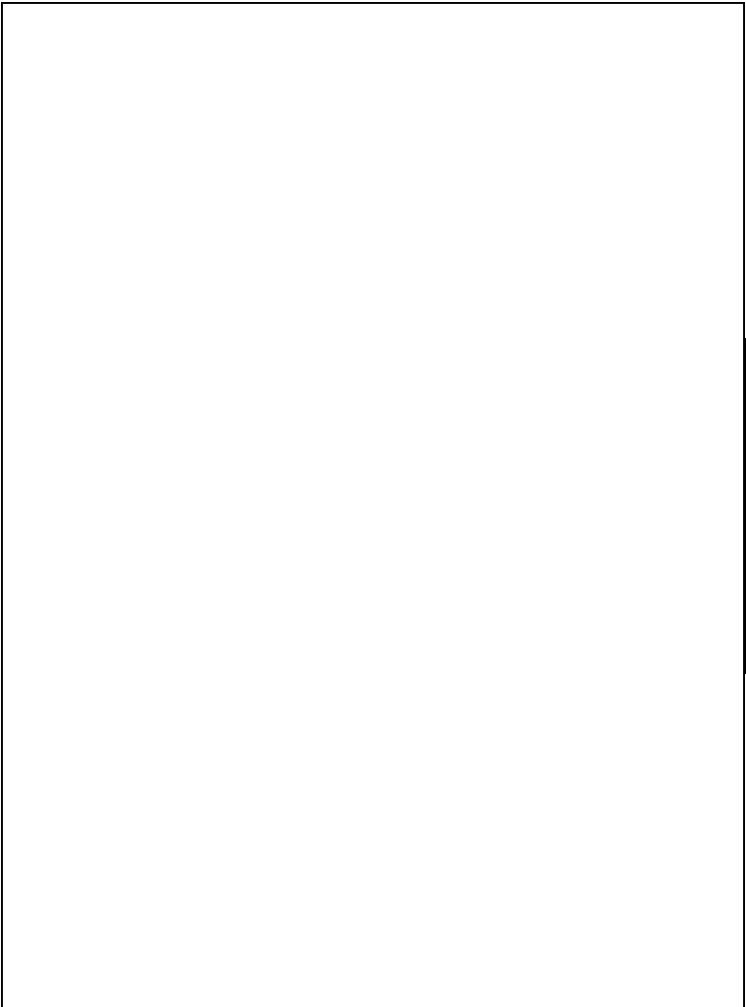

If your student isn't old enough to write, you may want to paste some facts into that section of the book.
