

Cut out front cover. Cut out each rectangle as one piece. Fold in half on the horizontal black line. Cut slit on the dotted line. Let your student write (or cut/paste) some singular words on the LEFT side of the rectangle. Then, he can lift up the flap and write the -es to designate a plural. When he is finished, he should be able to see the singular form of the word and lift the flap and see the entire plural word.

Try not to write TOO close to the left side of each page.

When finished, stack pages together and place cover on top. Staple where indicated.

# Singular/Plural
