| father | mother | son | daughter |

www.homeschoolshare.com

Cut out graph as one piece. Cut out cover piece ("Who made what?"). Cut apart boxes on the second page. Read back through the story and let your student paste the appropriate boxes in the chart. For example, the father stitched, so he would get a "stitched" box pasted above his name. Not all the boxes that you cut apart will be used.

When finished, you will have a bar graph. Who did the most work?
