

FRUIT BATS

WHAT KIND
OF BATS

USE

ECHOLOCATION

VAMPIRE BATS

Cut book out as one piece.
Fold right flap in. Fold left
flap in. Fold in half. "what
kind of bats..." should be on
the front cover.

Let your student write NO
behind the "fruit bats" door.
Your older student can write
more information (fruit bats
eat fruit not insects/meat, so
they don't need echolocation
to find their next meal).

Let your student write YES
behind the "vampire bats"
door. Again, your older stu-
dent can write more informa-
tion. If he needs help with
his research, tell him to look
up information about micro-
bats.
