

Cut L-shape out as ONE piece. Fold the top of the L shape down. Cut dotted lines. Fold the left rectangle in over the existing flap. Cut rectangle ("when the mother...") out and paste on the inside cover of the book. Let your student record her answers under the flaps.

When the mother bird returns to find the birds sleeping by their feet, she sees eight tiny feet gripping on the edge of the nest.

How many pairs of baby feet?	How many feet total? (including mother bird)
