Glue to the back of the front half of the tiger

Cut long rectangular strip out as one piece. Cut tiger out and cut in half on dotted lines. Take the front half of the tiger. Glue the right side where indicated. Take the back half of the tiger. Glue the left side where indicated.

Fold the black line between the front of the tiger's body and the "color" rectangle. Make it a mountain fold. Fold the black line between color and size (valley fold). Fold the next fold in a mountain. Continue folding and alternating valley/mountain folds. Your last fold will be the line between eyes and claws. Glue the back of the book into your lapbook. It will open by pulling on the front half of the tiger's body.
