Rhyming words are an important aspect of phonemic awareness. The objective for this activity is simply exploration of the concept of rhyming words. When reading the pairs of words, emphasis the fact that the words are rhyming words because they sound the same at the end. All of these pairs of words came from Chugga-Chugga-Choo-Choo and Train Song. Cut windows on three sides on page with train and glue to bottom sheet. Lift windows to read the matching rhyming words.
