

Cut out on solid lines. Valley fold on dotted lines. Glue cover graphics to shutters.

Color in your state.

Outline all the planting zones.

WHAT ZONE DO YOU LIVE IN?

Planting Zones –

Not all plants grow in all areas. The United States is divided up into different planting zones, according to the climate. Locate your state on a United States Planting Zone map. (You will find planting zone maps on seed packets, or at this site) What zone are you in? What other states are in your zone? Color in [Outline Map](#) to show different zones.

Cut cover graphics on solid lines. Glue to shutters of book.
