

Constellations in the sky

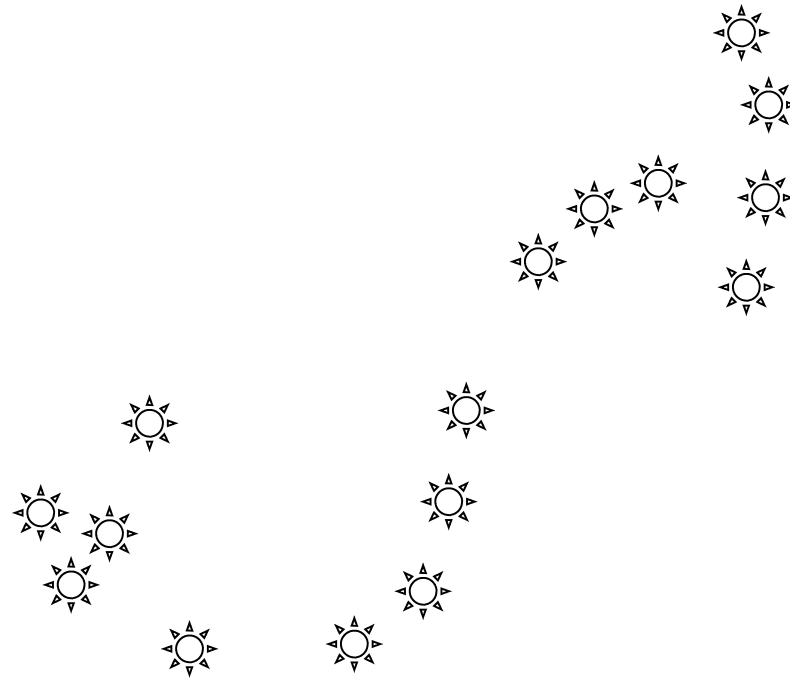

The Big Dipper

title

one

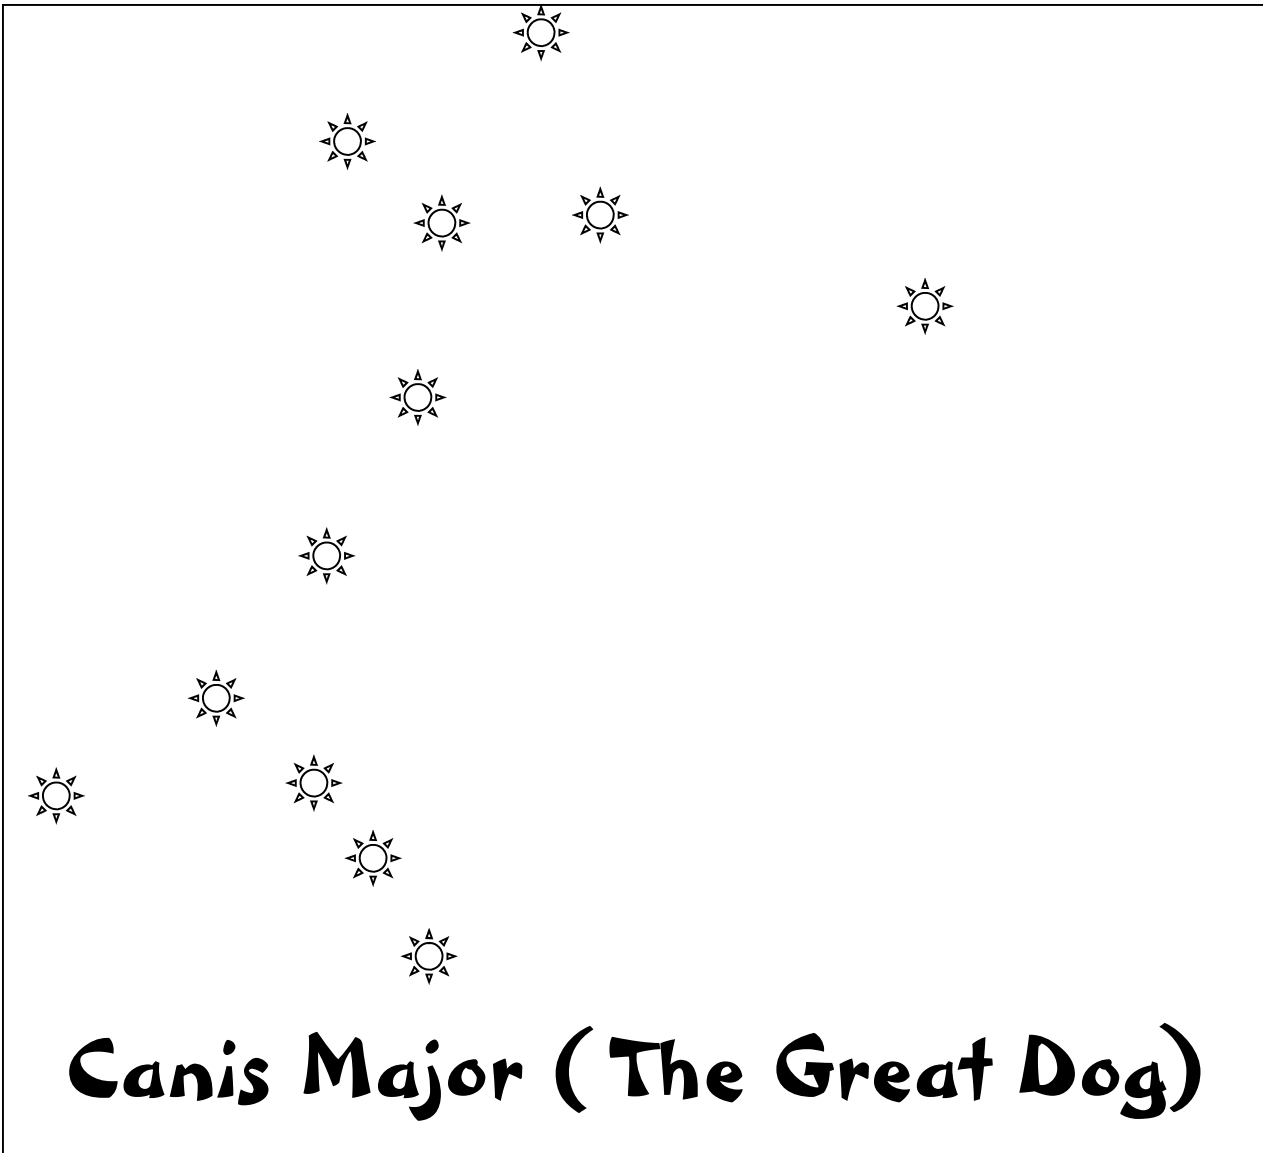

two

three

Scorpius (The Scorpion)

Cut out the rectangle on each page. Stack together with the smallest on top and the largest on the bottom. Staple at the top. If you have never done connect the dots with your child introduce him/her to the concept. Observe the stars on a clear night and talk about how people have looked at the stars and "connected the dots" to make pictures in the sky. Have your child stick star stickers on the three constellations to make the picture. Then have them connect the stars.

Canis Major (The Great Dog)
