

HAZARDS AT SEA

Print out on cardstock. Regular paper will be too flimsy.

Cut out component as one piece.

Using a razor blade cut out the center white area of the horizontal strip.

Cut ship out all around perimeter of tab and slides.

Carefully insert both of the blue slide tabs into the slot on component.

The bottom tab will be on the outside, to move the ship back and forth.

If the ship doesn't slide smoothly, trim away a bit of the slot.

Inside component, describe the various hazards the Vikings ran into at sea.
