Rune Alphabet

Cut on solid lines. Mountain fold on dotted lines. The bottom flap is a pocket. Put a small line of glue down the wrong sides of the pocket. Store cards inside pocket.

Cut out cards on solid lines. (Or use your own index cards) On the front, write words or sentences using the Rune characters. On the back, write the translation. Trade cards with sibling or parent and de-code using Rune Alphabet. Remember, you will sometimes need to get creative, as all the letters in our alphabet are not presented in the Viking Alphabet.
