

A tornado is a funnel shaped cloud that touches the ground. It acts like a huge vacuum sucking up anything in its path.

Tornado Warning - means a tornado has been seen. Take cover in basement or window free area immediately.

Meteorologists are scientists who study the weather. They warn people when a storm may turn into a tornado.

Tornado Watch - means a tornado may form. People should listen to TV or Radio for more warnings.

1. Cut out all 5 tornado shape pages. Fasten together at bottom of funnel with a brass brad.
