

ABC Fishing (Laminate & cut out fish. Add a paper clip to each fish or put a metal brad as the eye of each fish.)

To make fishing pole you need: dowel rod, small wooden cap, round magnet (same size as wooden cap), and string. Drill a hole through the dowel and through the center of the wooden cap. Put the string through the hole in the dowel and knot it. Put it through the wooden cap and knot it. Hot glue the round magnet to the bottom of the wooden cap.
