

# Boxed In Game

---

# RULES

The object is to complete the most squares. Each player takes a turn drawing a horizontal or vertical line between two dots. When you complete a square, write the first letter of your name in the square. You can then take another turn. Your turn is over when you draw a line that does not form a box. Your turn can include forming several boxes. The player who has the most boxes at the end of the game is the winner.

Laminate the game board and use dry erase markers so you can play the game over...and over...and over again!
