

# Animal Riddles Minit Book

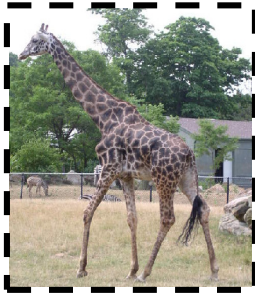

Cut out the pictures. Cut out the flip-flap (peek-a-boo) book in one piece. Fold on the solid center line. Cut on the dotted lines. Read the riddles to your student and help her decide which animal goes underneath each riddle. Your student may want to write the name of the animal as well.

You may want to use this minit book as a lead in on the Primates lesson (which discusses Old World monkeys, New World monkeys, and Apes).

Riddles were originally published in *Nature Friend*
