TOP OF BOOK

Cut out book on previous page as one piece. Fold each triangle under. You should have four flaps. Let your student paste one picture under each flap while you emphasize the sound at the beginning of the word. What other words start with /d/?

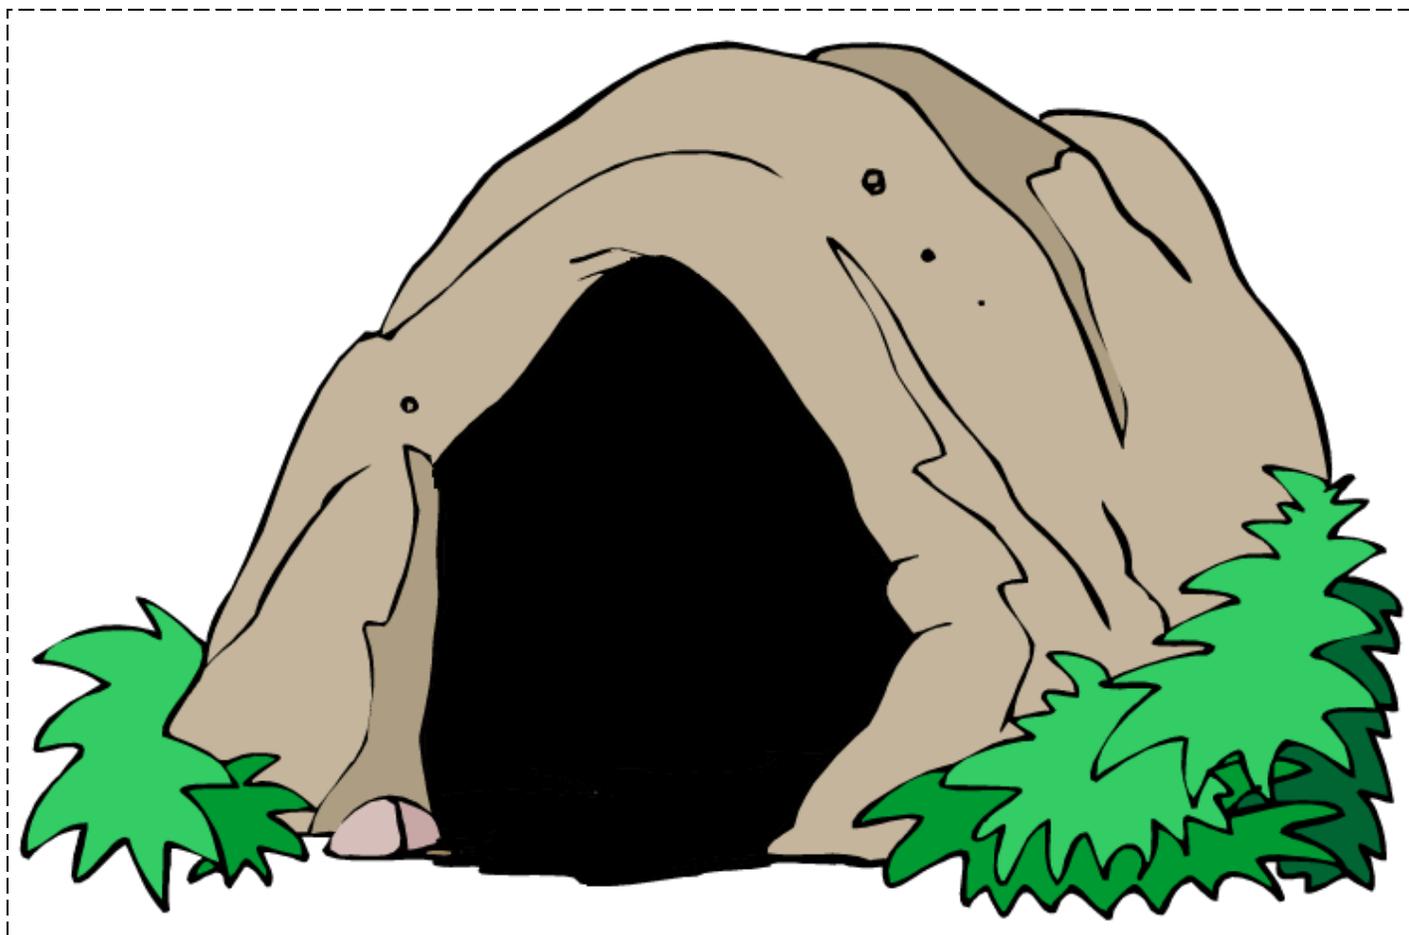

Cut out cave piece on the dotted lines. Cut around the black hole in the cave. Cut all around the door, but DO NOT cut the left side (this is where the door will stay attached). You do need to cut around the bottom; you want the door to be able to open and close.

Put a Velcro dot on the back of Angus. You will also need one on the inside of the cave door and one somewhere on the outside of the cave. Let your student put Angus IN the cave and take Angus OUT of the cave. You can use this to teach the words *in* and *out*. You can also let your student play with it (and act out part of the story). You could also use Angus around your house for other positional words.

Dogs with short legs

Dogs with long legs

Print pages on cardstock. Cut out each board as one piece. Cut apart game pieces (pages 3-4). Store pieces in pocket. You may want to make a pocket on the back of your lapbook to store the game boards.

To play: This is a two player game. Turn pieces upside down so that the pictures can't be seen. Take turning drawing pieces. If you find a match for your board, put it on. If it isn't a match, put it back. The first player to fill his entire board is the winner.

The cupboard was bare;
And so the poor dog had none.**

He eats so much that his tummy sags, (put hands on stomach)
His ears flip flop and his tail wig wags,
(bend wrists and make a flip flop motion)
And when he walks he zig, zig, zags! (make an imaginary "z" with your finger)
