

Playful Puppy Printables

Playful Puppy Printables

Page 3: My Dog Tale (creative thinking, storytelling, literacy)

Mom can type right on this page! Let your child dictate his puppy story to you while you type. This makes story writing easy for young children. They can write a great story without having to worry about handwriting, spelling, punctuation, etc. Kids usually generate better stories when someone scribes for them!

Page 4: The Truth About Dogs

Mom can type right on this page! At the end of your dog study, ask your student what he has learned. Record the information on this page and put it in his notebook.

Page 5: Same Size (visual discrimination, fine motor)

Page 6: Puppy A-E-I-O-U Game: beginner option (phonics, letter recognition)

Laminate this page, if desired. Cut the cards apart. Hide the "bone" behind one of the puppies. Let your student guess where the bone is (you can decide if you want her to use the name of the letter or the letter sound when she is guessing). Once she finds it, let her hide it for you! Continue playing.

Page 7: Puppy A-E-I-O-U Game: advanced option (phonics, beginning reading)

Cut the name cards apart. You do not need the bone card for this game (only the puppy cards). Can your student help you figure out the names of the puppies? Show your student the B_d card. Tell him that one puppy is named Bud. Can he figure out which one? Continue with the other puppies: Jip, Pal, Dot, and Pep.

Pages 8-11: One Stop Puppy Shop Game (taking turns, introduction to coins and bills, number recognition)

Pages 12-13: ABC Magnet Word Building

Use your alphabet magnets and a cookie sheet to build the words! If you have Montessori ABC letters, you can use page 13.

Page 14: Doggy Measurement

Cut out the dogs and the ruler. Measure the dogs. How many dog bones high is each puppy? Measure other things around your house. Can your student find something that is 7 dog bones high?

Page 15: Doggy, Doggy, Where's Your Bone? (counting, number recognition)

Print page 16 on a full label sheet (if you want to make stickers). Let your student fill in the missing numbers and count to 30 together!

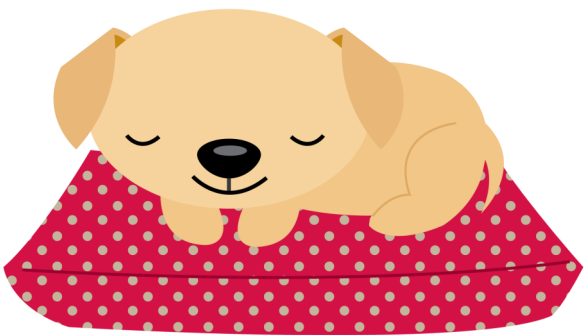

Pages 17: Playful Puppies Calendar (days of the week)

If you are using this unit for one week, use this calendar as an introduction to the days of the week for your student. Each day, let your student stick one bone sticker on the calendar. At the end of the week, review the days of the week together.

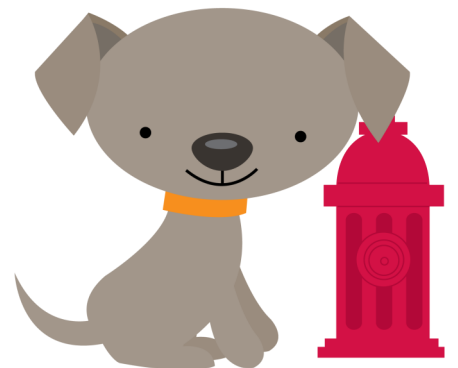

Page 18: Fine Motor Skills

Can your child cut her way to the dog's bones? Alternatively, your child can simply use a crayon to trace the lines.

My Dog Tale

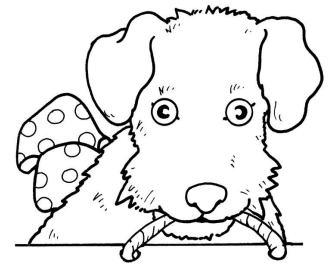

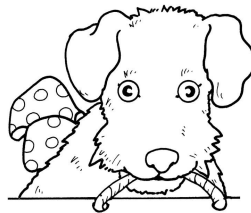

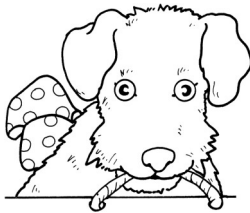

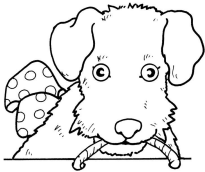

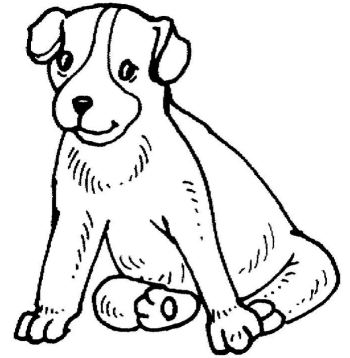

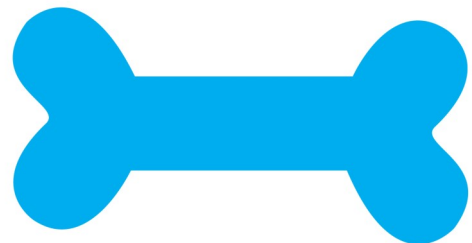

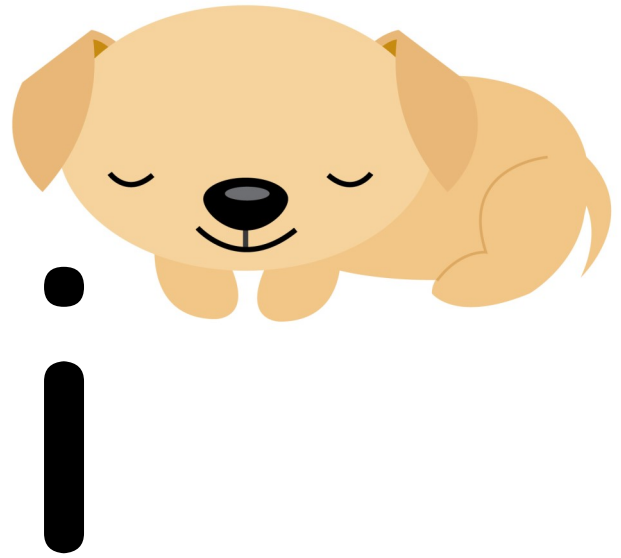

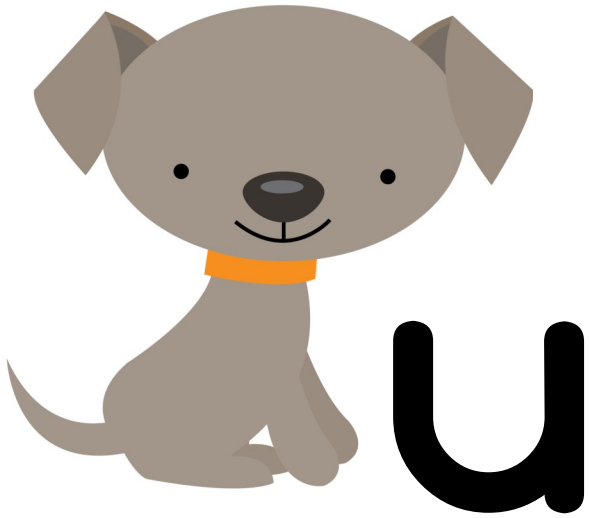

The Truth About Dogs

Same Size Dogs

Find the two dogs in each row that are the same size. Color them.

One Stop Dog Shop Game

Print one set of money (page 10) for each person and one set of game cards (page 11) for each person. If you already have play money at home, you don't need to print the money. You will need 1 nickel, 1 dime, 1 quarter, a 1 dollar bill, and a 5 dollar bill for each person playing the game.

Take turns rolling a die. You must roll a 1 to get your puppy (for free). You can not get any of the other items until you have your puppy! Once you have your puppy, you need to roll the die to get the other items. In order to get your items, you must pay for them. with the correct amount of money. The first person to have all six cards wins the game!

If you roll a 1, you get your puppy.

If you roll a 2, you get a bone.

If you roll a 3, you get a ball.

If you roll a 4, you get a Frisbee.

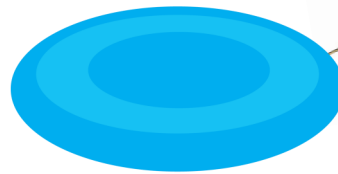

If you roll a 5, you get a puppy dish.

If you roll a 6, you get a puppy bed.
