INSTRUCTIONS

1. Print off the three sections of this coloring scene:
Your choice of FOREGROUND design and the MIDDLE GROUND and BACKGROUND.

(For best results print on to thicker paper or card)

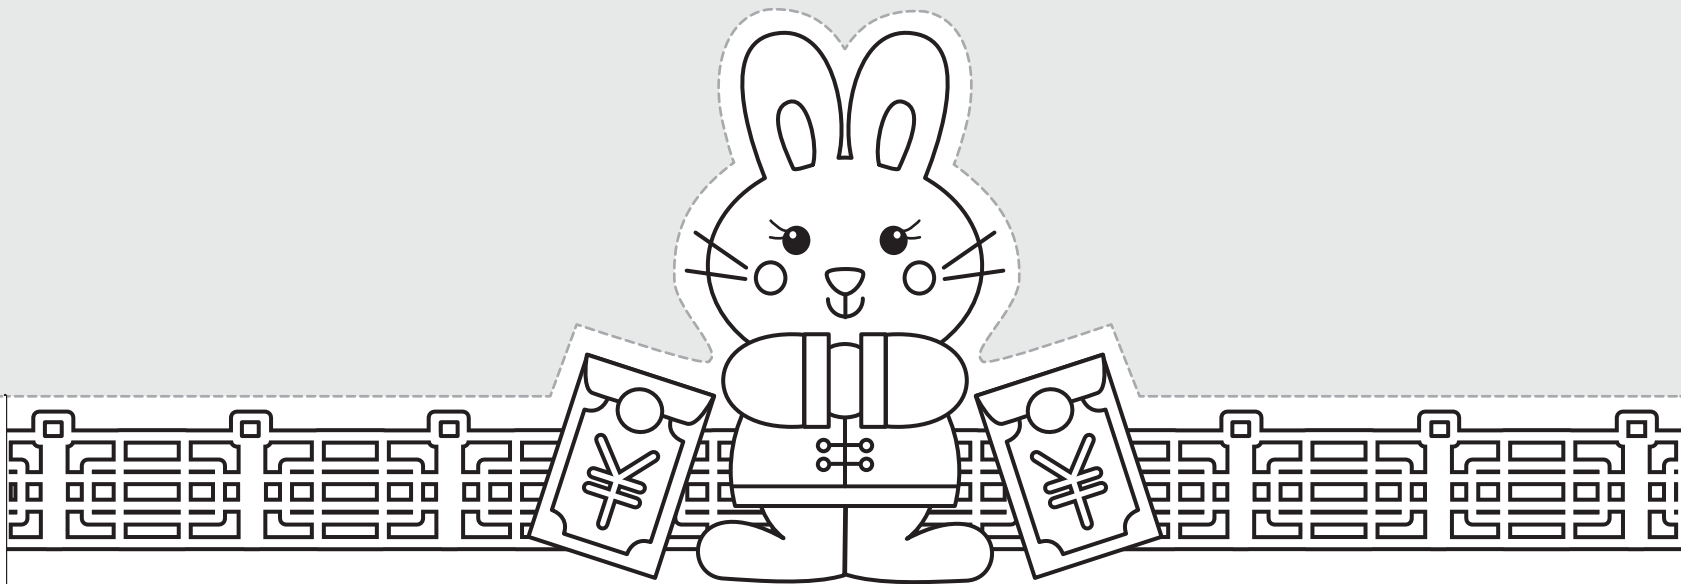

2. Color all three sections.
3. Carefully trim off all the grey areas (grey dotted lines indicate where to cut).
4. Fold all the tabs forwards or backwards as indicated.
5. Read the instructions on the side tabs for info on where to glue each one.
Work in alphabetical order: A1 will join to A2, B1 to B2, C1 to C2. If you work in order then when you come to E and F the striped section will be in the right place to just glue to the front of the scene.

The completed scene will be free standing.
The layers will add a 3D perspective to your coloring...
